ATTACHMENT TO GRIEVANCE

FROM: Reginald Wayne Baker # 217628

November 28, 2016

I am a disabled person, and I have been continually denied proper medical treatment by Corizon. Because of the improper treatment I have received, my medical conditions have gotten worse.

1. I have had bilateral hip replacement surgery, as well as right ankle replacement. I told both the Department of Corrections and Corizon about my disability, yet I was forced to work in the kitchen while at Bibb County Correctional, or go to lock-up. Working in the kitchen made my disability worse.
2. I have a blood disorder, and I have been denied proper medication, which includes having my blood checked. This has caused the condition to worsen, causing sores to break out on me and other problems.
3. I have been diagnosed with hepatitis C, and I have not been receiving any medication or treatment for this disease, even though I have asked for it repeatedly.

①

I am hereby filing suit against Corizon health care Dr Pavilaski and Bibb Correctional Facility for refusing me proper medical treatment, neglect, and cruel and unusual punishment of a Disabled inmate. During intake at K.C.F. I told medical and all intake staff my medical problems and disabilities. I've been disabled for nine years due to bilateral hip replacements (both hips) and my right ankle has also been replaced due to a bone disease causing my joints to deteriorate. I have very limited mobility and chronic pain daily. A week after being at Bibb I was forced to work in kitchen until I could not walk. I told staff and medical that I was not physically able to do work of any kind due to my disabilities and was told that I would work or go to lock-up without a no-work order from Doctor which he would not give me because he didn't believe me and would not get my Disability medical records which resulted in me not being able to walk without a walker or cane. Only then did he do X-RAYS and write no-work and no standing order. I am now permanently on a cane and or walker with constant pain. I can no longer do half the things I could before they crippled me and they refused to send me to ~~send me to~~ an Orthopedic Doctor instead they shipped me to a work-release center where there is no handicap accessories at all and I'm still being denied

proper medical treatment.

②

I am now at Childersburg Community Work Center where it's humiliating and almost impossible to get around on a cane and is impossible with a walker which I really need at this point. I have begged Corizon, Dr Butten to send me to professional medical opinion and he refuses also. I now have permanent damage and constant pain because of this. I also have a rare skin disease that causes really bad blisters and sores because of sun U-V rays. Only a week now after thirteen months without it did I get my medication started for that which I've been on for years and will be for the rest of my life and I'm supposed to do a phlebotomy each month, that I have a standing order for at Russell Hospital as part of my disability also and for thirteen months now I haven't had one because Corizon and D.O.C. refuse me medical care that was proven in front of a Federal judge for the state of Alabama that I need this care for the rest of my life. Now I made parole they are sending me to a program that don't even have medical care when I have four doctors of my own and insurance to pay for it. I am filing suit on Corizon Dr Pavlaski and Bibb Facility (D.O.C) and Corizon Dr Butten and Childersburg Work Center for refusing me proper medical treatment, neglect and cruel and unusual punishment on a disabled prisoner at this time. Dr Butten also

~~I was denied level~~

(4) — I am most certainly sure that if I had not been denied level one custody by classification here at C.C.W.C. I would not have been sent to life-tech after making parole. I was told that because of me being disabled I could not make level one custody. I have been through the same steps to earn my custody as anyone else but I've been here 8 months and was still level 2 which I'm sure had a lot to do with the decision to send me to life-tech. When in fact the only reason my custody never dropped was because of my disabilities which again is mistreatment of a disabled inmate which resulted in me not going home after making parole. I'm a nonviolator offender with no disciplinary or write up of any kind and my disabilities should not stop me from getting my level one custody as I was told that it did. I truly believe that had I had level one custody when I made parole I wouldn't have been sent to life-tech. I've only been locked up for 13 months. I need Health Care that I have constantly been denied by D.O.C and Corizon. They still don't have my disability medical records because they never once cared about my disabilities and still don't. My disabilities were never acknowledged by any of the Defendants. If you pull and review my D.O.C. medical file you will see nothing except for me begging for medical care that I still have not gotten

diagnosed me with Hepatitis-C six months ago and I have ask numerous times for treatment for that and have been denied each time and with proper meds Hep-C can be cured in twelve weeks. I've been asking for six months now and he has refused me treatment. He has now diagnosed me with H-pilori probably due to Hep-C.

- ③ → If my disability records had been reviewed ~~now~~ to start with, none of this would be taking place. Doc, Corizon, and parole board has refused to acknowledge my disabilities (my health issues), and they still are (parole board) or they would let me go home now that I have made parole where I can get the medical care that I very much need instead of making me go to a job training program for six months where there is no medical care and I will never be able to work again any way. I feel very much that I'm a victim of Neglect, cruel and unusual punishment and tremendous hostility and mistreatment of a disabled inmate.

At this time I Reginald Baker # 217628 am filing
suit in D.C. C.C.W.C. Corizon Dr Butler

D.C. Bibb Corizon Dr Pavalaski
and Parole Board for reasons listed
in the above letter.

Reginald Baker # 217628

- ⑤ Why can't parole board let me go home now that I've made parole. This system has already cripple me permanently and has constantly (and still are) refusing me medical care. I was supposed to go to Life-Tech today 12-6-16 and would have E.O.S. one week after program was over. Now I have to wait two more months to go to Life-Tech and I will E.O.S. three months (before) the class is over. It can't be that important for me to go to this program or they would have sent me when they denied me parole on 5-16-16 when I had time to complete it. It's absolutely senseless for them to hold me so that I can take program that I don't even have time to finish. If they would get and look at my disability medical records they would see that all this wouldn't be happening. I'm now crippled and in constant pain and humiliation because of this system D.O.C., Corizon and parole board has absolutely made me a victim of neglect and cruel and unusual punishment and mistreatment of a disabled inmate. I made parole I'm disabled and need medical care that have constantly been refuse. Life-Tech has no health care. I have four doctors that I've had for nine years and insurance to pay for it. Why am I still going through such mistreatment of myself and my disabilities.

V. RELIEF

State briefly exactly what you want the court to do for you. Make no legal arguments. Cite no cases or statutes.

Would the courts review and investigate and acknowledge that I am a true victim of mistreatment of a disabled inmate resulting in permanent damage physically, mentally, and emotionally. Seek compensation for that and any medical care I may need in future because of this. Such as and most likely Hip replacement again.

"I declare under penalty of perjury that the foregoing is true and correct.

Executed on 12-8-16
